Auditorium E.M. Pogliani
Fondazione IRCCS San Gerardo dei Tintori

PROGETTI VINCITORI DEL BANDO RICERCA FINALIZZATA 2024

PROGRAMMA

INTRODUZIONE
14.00-14.15 Prof. Pietro Invernizzi
Direttore Scientifico
Fondazione IRCCS San Gerardo dei Tintori

SEZIONE GIOVANI RICERCATORI

14.15-14.35 Laura Rachele Bettini
- Genomic Profiling to Identify Novel Prognostic Markers and Refine Risk Stratification in Pediatric High-Hyperdiploid B-cell Acute Lymphoblastic Leukemia

14.35-14.55 Emanuele Rezoagli
- Intermittent recruitment on Lung ventIlation-perFusion coupling in acute rEspiratory distress syndrome

14.55-15.15 Luca Sala
- Advancing precision medicine in lung cancer through the analysis of evolutionary dynamics and genotype-phenotype mapping

15.15-15.35 Marco Ceresoli
- Development, implementation and assessment of an evidence-based bundle for antibiotic prophylaxis in people undergoing colorectal surgery

15.35-15.55 Chukwuma Okoye
- Five-year follow-up after Sars-CoV-2 infection: prevalence and evolution of post-acute sequalae of COVID-19 (PASC)

15.55-16.15 Paola Alberti
- Topiramate repurposing to prevent Oxaliplatin-induced peripheral Neurotoxicity

SEZIONE PROGETTI ORDINARI

16.30-16.55 Lucio Tremolizzo
- Investigating Cholesterol Esterification at the crossroads of ALS pathogenesis

16.55-17.15 Giuseppe Bellelli
- Discovering biomarkers of post-operative delirium in older patients

17.15-17.35 Jacopo Di Francesco
- Late-Onset Epilepsy: Comprehensive Phenotypic Characterization through Neuropsychological Profiling, Plasma Biomarkers, and Advanced Brain Imaging for Understanding Cognitive Trajectories

17.35-17.55 Paola Rebora
- AI-driven Screening for Mammography to Enhance Public Health Outcomes

CHIUSURA LAVORI
17.55 Prof. Pietro Invernizzi
